

Kilimanjaro Expedition Equipment List 2019

Having the right equipment on your expedition will make almost as much a difference to your safety, comfort, and enjoyment as any physical training you do to prepare for your trip. It's essential that you take the time to acquire the correct gear and don't wait until the last minute to find out your local shop doesn't have your size. This equipment is expensive, but you can often find great sales online at Eddie Bauer and at your local gear store.

The purpose of this gear list is to help guide your purchases. Sometimes, salespeople in your hometown don't have first hand knowledge of high-altitude climbing, so balance their advice with what you read here. And don't hesitate to call us for more information on any of these items.

For the best personalized shopping experience with a climbing and mountaineering equipment expert, contact Alpenglowsports' Brendan Madigan at 530-583-6927 (w), 530-414-1472 (c), or Brendan@alpenglowsports.com. Located in Tahoe City, CA, Alpenglowsports is a gear shop dedicated to great customer service and they have an unparalleled knowledge of the products they sell. Alpenglowsports stocks or can quickly order everything you might need for your trip. And, of course, they will be happy to ship to your location if you are not in the Tahoe area. Let them know you are going on an Alpenglowsports trip. They're familiar with our expeditions, gear preferences, and the mountains we climb.

Hat - Bring your favorite baseball hat for shelter from the sun. No white under the brim - the reflection off of it from the sun is blinding.

Recommended: *Stylish Alpenglowsports Flatbrim*

Neck Gaiter (Buff) - A multi purpose neck gaiter that can also be worn under your hat. Make sure that it covers as much skin as possible and yet is still comfy.

Recommended: *Alpenglowsports Neck Gaiter or Eddie Bauer Multiclava and the Original Buff*

Balaclava - We recommend a tight-fitting balaclava that is worn under your hat. Make sure that it covers as much skin as possible, but is comfortable enough to wear for hours.

Recommended: *Patagonia Balaclava*

Beanie - A comfortable, warm well-fitting hat that covers your ears. Make sure that one of your hats fits under a helmet.

Recommended: *Eddie Bauer Telemetry or Patagonia Lined Beanie*

Glacier Glasses - Must have dark lenses. Minimal light should come in below, above, or around the sides of the lenses. "Wrap" style is best. Ventilation is important and a retainer strap recommended (Chums or Croakies).

Recommended: *Kaenon Klay or Revo Guide II*

Lightweight Glove - All-around gloves for mountaineering, backcountry skiing, and hiking. These gloves (and similar options) are warm, wind-resistant, durable and have a sure grip. You will rarely take these gloves off. They should be snug-fitting, and have some sort of reinforced palm.

Recommended: *Eddie Bauer Mountain Glove or Black Diamond basic work glove*

Midweight Gloves - These gloves should be full GORE-TEX®, and insulated. These will be your main glove for the trip until summit days, or when it gets especially cold.

Recommended: *Eddie Bauer Guide Glove, Black Diamond Spark, or Punisher*

Heavyweight Gloves - These gloves should be full GORE-TEX®, with a removable fleece liner (so you can take the liner out and dry it at night). These gloves are used at higher altitude and are need to keep your hands dry, and warm. Over the cuff style is recommended.

Recommended: *Black Diamond Guide Glove*

Liner Socks (2 pair) - (Optional) A super-thin wicking sock that repels moisture. Liner socks help to reduce the likelihood of blisters. The socks should be thin wool, nylon, or Capilene®. NO COTTON.

Recommended: *Ice Breaker Hike Liner Crew*

Hiking Socks (2 pair) - Your everyday sock, good for day hikes, trekking, and in- town. NO COTTON.

Recommended: *Patagonia Midweight Hiking Crew Socks*

Warm Socks (2 pair) - A wool synthetic blend. Pure rag wool socks are not nearly as effective in wicking moisture or retaining their shape and reducing blisters. NO COTTON.

Recommended: *Patagonia Ultra HW Mountaineering Socks, or Smartwool Mountaineering Extra Heavy Crew Socks*

Hiking shoes - These light to mid-weight shoes are for every day use. The ideal shoe is comfortable to wear for multiple days and scrambles decently on rock. A Gore-tex lined shoe stays drier when hiking in rain or snow.

Recommended: *La Sportiva Bushido Hiking Shoes or La Sportiva trail running shoes*

Hiking boots - These light to mid- weight boots are for every day use. The ideal boot is comfortable enough to wear for days and scrambles decently on rock. A Gore-tex lined boot often stays drier when hiking in rain or snow.

Recommended: *La Sportiva Core High GTX La Sportiva Thunder II GTX*

Waterproof Gaiters (if your pants and/or boots don't have built-in gaiters) - GORE-TEX® or Schoeller® calf- high gaiters, insulated supergaiters recommended.

Recommended: *Outdoor Research Expedition Crocodile Gaiters (required if your boots do not have integrated gaiters), Black Diamond GTX FrontPoint, or Mountain Tools Insulated Supergaiters*

Upper Body Light Weight - Ultra-light base layer that effectively wicks moisture away from your body and is breathable. Quick-dry is important as well. One light colored shirt is recommended for extremely sunny days. The new wool blends are also an option.

Recommended: *Eddie Bauer Quantum Short-Sleeve T-Shirt, or Patagonia Capilene 1 T-shirt and Icebreaker 150/200 weight shirt*

Mid Weight Layer - A poly-pro mid-layer that you will never take off. Fitted, light-weight and quick drying. Make sure it is long enough to tuck-in and we recommend zipper collars for more ventilation.

Recommended: *Eddie Bauer Resolution IR 1/4 Zip*

Warm layer - A polarguard or fleece jacket. Warmer than your expedition weight top, but not as extreme as your big puffy jacket. Full zip is recommended.

Recommended: *Eddie Bauer Cloud Layer Pro 1/4 Zip, or Patagonia R1 Jacket*

Soft Shell Jacket - (Optional) While this item isn't required, we know that those who don't have one wish they did! More breathable than Gore-tex, these jackets block wind and light precipitation. A windshirt is an option for this layer.

Recommended: *Eddie Bauer Sandstone, Patagonia Guide Jacket, or Black Diamond Induction Shell*

Gore-Tex®/Weather Edge Flux jacket - A lightweight, waterproof and breathable jacket WITH A HOOD that can withstand extreme weather conditions. Make sure you have pit-zips and if you are using an old jacket, re-waterproof it.

Recommended: *Eddie Bauer BC Alpine Light Jacket, or Patagonia M10 Jacket*

Down parka - A puffy jacket with a hood that will keep you warm during the coldest of conditions. The higher the quality down, the better (800-fill is best). However, be sure the jacket is still lightweight.

Recommended: *Eddie Bauer XV Down Jacket*

Quick-dry shorts - Throw these on under other layers for when the sun begins to beat, or you have a sudden urge to jump in a glacial lake. Lightweight, durable and comfortable. NO COTTON.

Recommended: *Eddie Bauer Guide Pro Short, or Patagonia Baggies Shorts*

Light to mid-weight - Fitted and quick drying. This piece will be a base-layer that will get you through a wide range of temperatures.

Recommended: *Midnight FreeDry Merino Hybrid Baselayer, or Patagonia- Capilene 2 Bottoms and Icebreaker 200/260 weight*

Trekking pants - You will spend most of your days in these pants. Choose Schoeller® or a soft-shell equivalent. Breathable + water-resistant. These pants should have an ankle zip so they will accommodate your mountain boot.

Recommended: *Eddie Bauer Guide Pro Alpine, or Patagonia Simul Alpine Pant*

Gore-tex® pro shell pants - Your waterproof bottom layer for extreme weather days. Make sure you have water-resistant zippers, crampon patches + good pockets.

Recommended: *Black Diamond Sharp End Pants*

Backpack - Internal frame pack that is between 35 and 45 liters. Either purchase a matching pack cover, or use garbage bags as liners. Make sure the pack is fitted to YOUR body.

Recommended: *Eddie Bauer Alchemist 40 Pack, or Black Diamond Mission 45 Pack*

Hydration System - (Optional) Should carry 70-100 ounces. Must be durable and have a reliable closure system.

Recommended: *MSR Dromlite 2L with Hydration Tube*

2 Duffel Bags - 2 Duffel Bags - At least one bag should be extremely durable, waterproof, and big - between 90L and 120L. You should feel comfortable leaving it in a puddle for several hours. Remember dry clothes are hot commodities in the mountains! Large enough to fit everything you own, plus what you anticipate buying. Two duffel bags are necessary to fit all your equipment for travel (we don't recommend checking your backpack, best is to put all gear into duffel) Once in country, you can consolidate your gear into one duffel and your backpack. It's common to leave the second duffel with city clothes and other non-necessary items behind in a locked and secure location that your guide will arrange for you.

Recommended: *Eddie Bauer Maximus Duffel*

Sleeping Pad - 72 inch long inflatable pad required. Make sure you also purchase and bring a repair kit + bag for the sleeping pad.

Recommended: *NeoAir Xtherm*

Sleeping Bag - Rated to 0° F. Choose an 800+ Fill Premium Goose Down bag. Make certain that the sleeping bag is the right length. **DON'T FORGET A COMPRESSION SACK FOR THE SLEEPING BAG.** Many climbers also like a silk liner. Granite Gear Compression Sack is desired.

Recommended: *Eddie Bauer Kara Koram with Compression Sack*

Headlamp - L.E.D. headlamps are required.. Make sure they have 3+ bulbs. Bring extra batteries. We highly recommend a tilting lamp.

Recommended: *Black Diamond Spot Headlamp*

Trekking pole(s) - (Optional) Make sure that they are durable, lightweight + easily adjustable.

Recommended: *Black Diamond Contour Trekking Pole*

Two Nalgene 1 liter, wide mouth bottles.

Recommended: *Nalgene 1L wide mouth Water Bottle x2*

MISCELLANEOUS: underlined items are required

- PASSPORT (with visa, if necessary)
- TRAVEL WALLET POUCH (waist or neck)
- 2 LUGGAGE LOCKS (TSA compliant)
- LEATHERMAN/ SWISS ARMY KNIFE (think lightweight- Leatherman Juice C2 is guide's favorite).
- PLASTIC BOWL, SPOON + MUG
- WAG BAGS (3 Bags used while defecating on the mountain as to leave no trace)
- NON-COTTON UNDERWEAR (men- polypro boxers or briefs / women-poly-pro sports bras, cotton or polypro briefs are fine)
- 4 HEAVY DUTY GARBAGE BAGS (at least)
- ZIP LOCK BAGS (large size, for organizing small items and waterproofing)
- STUFFSACKS (assorted sizes, for organizing your clothes and gear)
- SUNSCREEN: SPF 30 (or higher) LOTS
- INSECT REPELLENT
- LIP BALM with SPF 15 (or higher) Dermatone, Blistex
- PERSONAL FIRST-AID KIT (Band-aids, Ibuprofen, Cough Drops, Moleskin, Pepto-bismol, Immodium, Personal Medications)
- PEE FUNNEL (optional for women) One popular model is the Freshette.
- TOILETRIES [Toothbrush, Toothpaste, Bio-degradable Soap/Shampoo (Dr. Bronners), Quick Dry Towel, Moisturizer, Purel Hand Sanitizer, Antiseptic Hand Towlettes, Toilet Paper (a small emergency stash)]
- SNACK FOOD (trail mix, balance bar, GU, candy, powdered drink mixes – don't bring a whole suitcase, but bring a variety of things you know you can eat while in the mountains. Carbohydrate energy gels are essential for summit days. 10 packets should be sufficient unless you love the stuff!)

IN TOWN:

- T-SHIRTS
- SHORTS
- SKIRTS (WOMEN)
- GOING-OUT CLOTHES (for a celebration night out in town, clothes that will not go into the mountains)
- LONG PANTS
- UNDERWEAR
- SOCKS
- WARM SWEATER
- SWIMSUIT
- SNEAKERS (a pair of shoes that will not go into the mountains)
- SPENDING MONEY (souvenirs, gifts, departure tax, staff/guide tips)

OPTIONAL:

- SMARTPHONE: for music and photos.
- EXTERNAL BATTERY PACK for phones, and other electronics. Recommended: Anker PowerCore Speed 10000.

- EAR PLUGS
- JOURNAL/ CARDS/ GAMES FOR PERSONAL ENTERTAINMENT
- LANGUAGE PHRASE BOOK OR DICTIONARY
- CAMERA- Full size DSLRs not recommended as your summit camera. Sony RX100 is a guide's favorite. Remember extra SD cards and batteries.
- COMPACT BINOCULARS
- SANDALS (flip-flop Chacos or Tevas)

A NOTE ON PACKING

For your international flights we recommend that you pack all of your equipment in your two duffle bags. Do not simply pack your backpack (since its straps can be damaged by baggage handling machines). It is important to lock these bags for their trip. Depending on airport, you may be able to put your travel locks on after they have been searched. If not, lock the bag with zip ties. If the TSA cuts off the zip tie to search your bag, they will replace it. You will still need travel locks to lock your bags in the hotel and in Basecamp. Generally, you will take one duffle to Basecamp, and leave one in the hotel with your belongings for town.

GEAR CHECKLIST

- HAT
- NECK GAITER
- BALACLAVA
- BEANIE
- GLASSES
- MOUNTAIN GLOVES
- GORE TEX GLOVES
- LINER SOCKS x2 (OPTIONAL BUT RECOMMENDED)
